

Another Light Ordering Information

Another Light explores two ways of seeing, the visual and the creative. Out of the temperate forest wilderness and second growth farms Larry Richardson creates these evocative photographs of nature. In response, poet Charles Butterfield finds in the image windows opening to memories renewed, lessons learned and dreams dreamed. The arts of photography and poetry work together here in creative synergy that pleases the eye and expands the spirit.

OPTION # 1: Use the following order form to order books:

Date: _____
